

# AIRSENSE™ BALANCED

## HOME VENTILATION

Smart Touch controller and app

**HRV AirSense™ is home ventilation, reinvented. From the fan housing in your roof to the outlets in your rooms, our system has been redesigned and reengineered with New Zealand homeowners in mind.**

HRV AirSense™ Balanced is the ultimate: a fully featured New Zealand home ventilation system that's scientifically proven to reduce moisture<sup>1</sup>, and helps prevent mould, featuring a heat exchanger for winter comfort and an HRV Summer Kit for the warmer months.

FEATURES	BENEFITS
New aerodynamic fan housing and German-made EC fan	More efficient operation
New WoolCare™ filter, made in New Zealand with FilterLayr™ nanofibre filtration technology	Reduces dust, mould spores, pollen and other common allergens
New aerodynamic ducting system	Greater efficiency to maximise airflow to your rooms
New in-line flow controllers	System is fine-tuned to deliver the ideal airflow to each room
New 5" Smart Touch wi-fi connected wall-mounted controller and smartphone app	Full system control plus visibility of all system air quality measures
New redesigned ceiling outlets	Efficient airflow across a range of design choices
Includes HRV Summer Kit	Draws fresher and cooler outside air into your home, delivering more air, more often
ALSO INCLUDED WITH BALANCED HOME VENTILATION	
Balanced pressure system	Includes an air outlet to allow airflow through even tightly sealed modern homes
Heat exchanger	In winter, incoming fresh air is warmed by outgoing air, so the system removes moisture, not heat

For warranty details see [hrv.co.nz/ventilation-warranty](http://hrv.co.nz/ventilation-warranty)

1. Based on a scientific study of 15 New Zealand homes conducted by Unitec Institute of Technology (Auckland) on behalf of HRV during winter and spring 2021. Results may vary depending on design and geographic location of a home.
